

INCLUDES GOOGLE™ SLIDES

THREE READING CHALLENGES

GRADES
4-8

Flexible, editable, differentiated

EASY TO DIFFERENTIATE!

This set includes three different reading challenges. Students can decide which one works best for them. The Sticker Chart Challenge is 100% customizable.

A TO Z READING CHALLENGE

Students color letters as they finish books. For example, if a student reads *Front Desk* by Kelly Yang, they would color F for “*Front*” or Y for “Yang.” Letters can represent authors, titles, or both.

33-BOOK CHALLENGE

Students can track their
books read in their
notebook or binder

Students can
keep this one
in binder or
notebook

This is similar to the A to Z Challenge, but students color book spines instead. With this challenge, students can read any 33 books they choose.

STICKER CHART READING CHALLENGE

This is the most flexible reading challenge! Students add a sticker to their poster when they reach a personal reading goal. Track minutes, pages, words, books...anything they like!

INTRODUCTORY PRESENTATION

CHOOSE YOUR OWN READING CHALLENGE!

(STUDENT NAME)

CHOOSE YOUR OWN GOAL

Sticker Chart Goal Ideas:

- Number of books finished
- Number of reading minutes
- Number of pages read
- Number of words read
- Number of graphic novels read
- Number of audiobooks read
- Anything else you like!

Eight slides introduce the three Reading Challenges to students. All text and most images are editable.

CREATE PERSONAL OR GROUP GOALS!

Personal Challenges

Group Challenges

MULTIPLE COLORS

The Sticker Chart Reading Challenge includes black-and-white + 8 color options.

DETAILED DIRECTIONS FOR TEACHERS

THREE READING CHALLENGES

Thank you for your purchase! This set includes three different Reading Challenges. They can be used in your classroom or library for years to come! A few tips to get you started...

- All text is editable except for the ABC Reading Challenge letters. The challenge letters are not editable.
- All text is in Arial font on your computer. (scroll about 1/2 way down) Download the fonts to a folder on your computer. Replace the fonts in the PowerPoint with the fonts you downloaded.
- Different Reading Challenges for different students. I have included which Challenge is best for which student.
- Enlarge the text for the reading challenges.
- All three Reading Challenges are individual.
- Question

READING CHALLENGE #1: ABC READING CHALLENGE

WHO IS IT FOR? The ABC Reading Challenge is great for students who need to diversify their reading choices. When students have to pay attention to author names or titles, they pay less attention to specific genres or series they like. It can also be used to practice the concept of author and title.

HOW DOES IT WORK? Allow students to use author last name as the first letter of the title. Or, challenge them to use only titles or only authors! Eliminate "a," "an," and "the" as the first word in the title. For difficult letters (Q, X, Z), allow students to use those letters anywhere in the title or author name.

HOW DO STUDENTS RECORD BOOKS READ? Students color in the letters as they read books to represent those letters. To ensure student privacy, please do not ask them to write their book titles on the letters if you are displaying the Reading Challenges publicly.

WHAT SHOULD I PRINT?

- Print Slide 4 in a larger size (11X14" works great) if you want to display Reading Challenges
- Print Slides 5-6 front-to-back for students to keep in their binders.

READING CHALLENGE #2: 33-BOOK READING CHALLENGE

WHO IS IT FOR? This challenge is great for students who want to try reading one book every week. It's a bit more open-ended than the ABC Reading Challenge because students are free to choose any book they want, without worrying about the author or title matching the ABCs.

HOW DOES IT WORK?

book they finish

HOW DO STUDENTS RECORD BOOKS READ?

on a wall (be sure to have their own student privacy, just like public displays of Reading Challenge if student

WHAT SHOULD I PRINT?

- Print Slide 8 as a poster if you want to display the challenge
- Print Slides 9-10 front-to-back for students to keep in their binder

READING CHALLENGE #3 STICKER CHART CHALLENGE

WHO IS IT FOR? The Sticker Chart Challenge is perfect for reluctant readers, ESL readers, and other readers who may prefer to set up their own Reading Challenge.

HOW DOES IT WORK? The Sticker Chart Reading Challenge allows students to put a sticker on their Reading Challenge Poster. The stickers can represent number of pages, minutes, words, or books they read. This is the most open-ended Challenge of the three since students can decide how they want to set it up.

HOW DO STUDENTS RECORD BOOKS READ? This challenge works great as a "design your own" Reading Challenge! I've included black-and-white and color versions of this Reading Chart. I used the colored versions, but students can always color or decorate their own sticker charts.

WHAT SHOULD I PRINT?

- Print the slides of your choice (Slides 13-21) in at least 11X14" size to hang around the classroom, in the halls, or in the library.
- Print Slide 12 for students to keep in their binder. To protect student privacy, this is the only place where they should write the titles of the books they read.

ADDITIONAL TRACKING PAGES

Protect student reading privacy by allowing students to keep a list of books they read in their binders (writing titles read on the display posters is not recommended).

LANDSCAPE & PORTRAIT

Display posters and tracking pages include both landscape and portrait orientation. (Exception: Due to limitations on artwork on the 33-Book Challenge does not include landscape view.)

ALL TEXT IS EDITABLE!

All three challenges can be customized with student names and personal reading goals.

THREE FORMATS

Editable formats include:

PowerPoint, Google Slides, and PDF.
