## Idea #1: Start with Storytime

by Collette Jakubowicz (Mrs J in the Library)

If you love reading aloud as much as I do, then you'll really love these orientation lessons that teach about the library and book care through a storytime read-aloud.

The books to read aloud are commonly found in school or public libraries, though you can swap them for other library-focused books too. In this bundle, there are 4-5 weeks of lessons for kindergarten, 1st, and 2nd grade. The printable activities are shown, but digital ones for Google Slides and/or Google Classroom are available too.

## Idea #2: Orientation, Scavenger Hunts & Escape Rooms

by Sonya Dykeman (The Library Patch)

Every new school year should start with library orientation activities! They are vital, not only in establishing clear expectations, but in making it easier for students to navigate the library's layout.

Ultimately library orientations build independence and a sense of community. Orientations that are BOTH tailored specifically to the age and grade level of your students AND interactive will be the most successful!

Hey there friends! I'm Laura Trapp, aka The Trapped Librarian.

I retired in 2020 after 32 years as a full-time educator, split between the elementary classroom and library. For the past 3 years I've been traveling to some small country schools here in Montana on a part-time basis teaching library classes in grades K-8.

When I'm not working, you can find me sitting next to the mighty Missouri River in my backyard or floating by in my kayak!

# Idea #23: Send Home A Back-to-School Newsletter

by Collette Jakubowicz (Mrs J in the Library)

Making a great first impression with parents is so important for the start of the school year!

For kindergarten parents, especially, you are introducing your school library program to them and setting expectations.

These parent newsletter templates are completely editable, so they fit your library's policies, and it will help you promote your library resources, databases, and website to parents.

**PRO TIP:** Don't send these home in a "parent packet" with other forms from your school. Instead, send it home with students on their first day of library class, so it doesn't get lost in the big pile of letters and forms that parents receive on the first day of school.

[See these Back-to-School Library Newsletters from Mrs. J in the Library](#)

# Idea #24: Banish Those Library Fines!

by Leigh Collazo (MrsReaderPants)

[Read this article from MrsReaderPants](#)

Do you allow your students to read off library fines? I started doing this and haven't looked back!

My students were notorious for having tiny library fines that just sat around, unpaid, for months at a time.

These pesky little fines used to drive me and the teachers nuts! How many students were not checking out any books because they had a 55 cent overdue fine? That was totally ridiculous, but district policy to charge fines left me with my hands tied. Here's what I did to help...

## Idea #25: Print Some Colorable Bookmarks

by Sonya Dykeman (The Library Patch)

Kids LOVE their bookmarks! I couldn't even come close to keeping up with their demand for them in the library.

So, I created my own. Now, I simply print these bookmarks on white cardstock, cut them apart, and leave them at the circulation desk!

There are four unique bookmarks for each month of the year. So, I set out a new bookmark each week for the kids to choose! Last year, I had students trying to collect them all.

[See these Monthly Bookmarks from The Library Patch](#)

## Idea #26: Get Moving & Have Fun with Orientation Games

by Collette Jakubowicz (Mrs J in the Library)

[Read this article from Mrs J in the Library.](#)

Setting expectations for older students in the library is an important part of back-to-school, and for many students it's a review of what they already know.

Make it fun and engaging with a game!

This article explains how to set-up an orientation game using simple, inexpensive materials to transform your library into a life-sized board game that students can play as they travel around to different parts of your library.

It works with any library space or layout, and you can even make it a scavenger hunt instead of a board game if you're time is limited.

## Idea #27: Assign Some Library Jobs

by Laura Trapp (The Trapped Librarian)

Having library workers is a great way to connect with students AND get a little help in your library!

Get set up and organized for workers in your library this school year with the Library Workers Kit.

Your students will take pride in their meaningful work and they'll be excited to be connected to the library in an important way!

## Idea #34: Help Kids Experience the JOY in Reading

by Sonya Dykeman (The Library Patch)

As librarians, I bet that many of us are in charge of our school-wide reading programs.

We often take point as the leader for our PARP Programs and our Summer Reading Challenges.

As our teachers become more and more constrained by time and curriculum, I think that it's vital that as librarians, we try to keep reading fun!

Yes, fun! This article and accompanying download may be just what you need to keep the JOY in reading.

## FUN (AND FREE!) VIDEO RECOMMENDATIONS

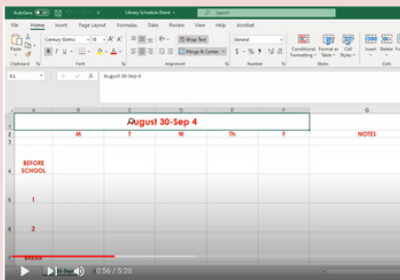

(Click the images to view the videos - more videos on p. 13)

Brigham Young University has put out four quick videos on book care.

The videos are hysterical!

Although they are geared for college kids, they are perfectly acceptable for older elementary students too.

Disorganized? Can't remember the 947 tasks you need to complete by the end of first period?

I have tried a LOT of different calendar and "to do list" systems in my years as a school librarian.

This one is by far my favorite!

Be the Light! A pep talk for all educators at the start of a new school year...

I was honored to share this message a few years ago, and it still rings true for me today!
